**MARKHORS**

**Markhors Apparel & Co** is the premiere apparel company for all your needs. Markhors Apparel & Co produces custom clothing and custom products for businesses, sports clubs, sports teams and schools. We have hundreds of designs for corporate apparel, sports apparel and promotional products for all your needs. We have built ourselves around the **“Team Store Concept”** which has not only set us aside from the competition, but our Team Stores allow you the customer to have a fully customized store just for your company or sports team. Your custom apparel is designed and produced with your logo, sponsors logos, in your colors and in a design of your choice. You can design your own custom clothes or we can design it for you. We have an in-house graphic designer who is top notch and with his professional, creativity and experience she can accommodate all your design needs from concept to production. He can help with creative design, conceptualisation, illustration, logo design, branding, color separation and much more.

**Markhors** Apparel & Co supplies high-quality custom corporate apparel; custom sports apparel and uniforms and custom accessories including sports bags, sunglasses, drink bottles and other quality custom products for corporate, sports clubs and schools around Melbourne and expanding in **WA and NSW**.

**Markhors** Apparel & Co was established in 2013 in Melbourne, where we pride on ourselves on delivering the top of the line quality apparel and service. We work hard to ensure that every customer is 100% satisfied and that our service and goods are top quality products with on-time delivery.

Our company has the best online platform for supporting client’s needs, customization and selections. We guarantee that apparels and corporate uniforms that we offer are durable, stylish and well designed. We aim to meet and satisfy needs and wants of people in terms of corporate apparels. Our company is composed of expert and competitive workers. So, if you need corporate apparel, marketing or even a new company logo, don’t hesitate to contact our company. We see to it that we can provide a product that suits to your wants and needs. Our company is proven efficient and popular company that provides wide range of products that can help our clients feel comfortable with the clothing that they bought from us.

## **SOCCER APPAREL SUPPLIES**

It is with great pleasure that **Markhors Apparel & Co** would like to introduce clubs through to representative teams and elite organizations. Markhors Apparel & Co furthermore manufactures all its own apparels for Soccer, Rugby, Cricket, Australian Rules Football, Netball and Basketball sporting teams.

We aim to raise our profile in the soccer community, working closely with local associations and clubs by providing them with punctual and high quality finishing products. Each order is processed and delivered only after being checked and cleared by our quality controller. Our Melbourne based management team will be available to keep you updated regarding your order for the entire manufacturing progress.

We offer the absolute highest quality in high performance customized sports apparel at competitive prices. We have three full time designers that work with you throughout the process, ensuring you are provided with first class service and unique, cutting-edge designs for your club. We offer the full range of on-field and off-field apparels, including but not limited to:

- ◆ Sublimation Soccer Kit
- ◆ Cut and Sew Soccer Kit
- ◆ Jackets, Hoodies and Track Suits
- ◆ Training kits & social polos
- ◆ Bags and Soccer Balls
- ◆ Scarfs, Beanies and more.
- ◆ WARRANTEE

## SERVICES

We offer a wide variety of core products, however if you do not see what you are looking for please contact our team and find out how we can help you further develop your custom product. Our team works tirelessly behind the scenes to ensure all timelines are met, quality is checked and your experience with our company is positive and stress free. **Markhors** Apparel & Co focus on fast, reliable, high quality products. Our 9 years experience in these areas has built our solid

## ORDERING

**Markhors** Apparel & Co online caters for all types of customers whether it be designing your own kit, ordering express team wear or training equipment. The website is user friendly and allows you to design your complete kit from start to finish including logos, colors, numbers etc. Response from our sales team is generally within 24 hours of your online inquiry.

## PRODUCTION TIMELINES

Regardless of the timeline used we follow the same simple four step process to ensure your gear is delivered on time. Try out our new online tracking system so you can see exactly where your garments are in the manufacturing and delivery process. Word of mouth is one of the best compliments anyone can receive. We put customer service and focus above all else and this truly shines through.

We really do go above and beyond what a customer expects. We want clients to have an experience that they will not only remember, but also tell their friends. All work will be completed within 28 days from design sign-off. In peak periods such as February & March these can on occasion extend to 35 days. A few points to bear in mind. The 7 (add 100%), 14 (add 40%), 21 (add 20%) & 28 day period commences from when formal design sign-off has been approved, not from when the order is lodged. The relevant surcharge is applicable across the entire invoice. We will endeavour to complete finished art as quickly as we can and this may incorporate sign-off after hrs. If we do not receive sign-off until the next business day for instance this may effect the promised delivery time frame as a result. Where possible in non peak times, we will always attempt to delivery ahead of the standard 28 day time frame at no additional charge. If you require an order to be completed in under 28 days just by stipulating a 3 week production period for instance in an order "assuming" it will be completed with no additional surcharges - it will be invoiced with the applicable surcharge, please do not assume it will be invoiced at the standard rate.

## OFFSHORE MANUFACTURING

During peak season our factory in China & Pakistan can produce up to 5,000 garments per week and airfreight these garments to our factory in Guangzhou, Lahore & Sialkot within 3-5 working days. Our testing facilities and quality control is second to none with all materials tested before going into production. Each and every garment is quality checked post production to ensure our high standards are met. It is the constant upgrading of fabrics, machines and our technology which allows us to stay ahead of the opposition. High quality garments are delivered on time, every time.

## EMBROIDERY

Custom embroidered apparel is a tremendous boost to any marketing strategy or event, and is always day-to-day appropriate in business and play. Embroidery is a technique of embellishing apparel that provides a distinctive sophistication without sacrificing durability. Custom embroidery services are performed in-house at off Shore & local factory. The expertise of our experienced craftsmanship, our dedicated staff and our creative and knowledgeable in-house specialists personally attends to each project. Whether featured on a traditional button-down, corporate casual polo, or athletic performance apparel, an embroidered logo will boost your image and ensure your brand gets noticed. Embroidery has numerous options, so every team within your company can be outfitted with embroidered corporate apparel that suits its functionality. Embroidery will wear well over time and will last as long as the garment is cared for.

## WOVEN LABEL

Woven badges are the preference of choice for most international teams and local A league clubs around Australia. The detail that can be achieved is much greater than the stitches by an embroidery machine. The badges can be applied in two ways: Heat seal where the back of the badge has a special adhesive or sewn on to the garment.

## SCREEN PRINTING

Screen printing is a printing technique that uses a woven mesh to support an ink-blocking GetGeared to receive a desired image. The attached GetGeared forms open areas of mesh that transfer ink or other printable materials which can be pressed through the mesh as a sharp-edged image onto a substrate. A fill blade or squeegee is moved across the screen stencil, forcing or pumping ink through the mesh openings to wet the substrate during the squeegee stroke. Basically, it is the process of using a mesh-based stencil to apply ink onto a substrate, whether it be T-shirts, posters, stickers, vinyl, wood, or other material. Screen printing is also a GetGeared method of print making in which a design is imposed on a screen of polyester or other fine mesh, with blank areas coated with an impermeable substance. Ink is forced into the mesh openings by the fill blade or squeegee and onto the printing surface during the squeegee stroke. As the screen rebounds away from the substrate the ink remains on the substrate. It is also known as silkscreen, serigraphy, and serigraph printing. One color is printed at a time, so several screens can be used to produce a multicolored image or design.

## HEAT SEAL

Heat seal is the use of a vinyl with an adhesive backing. This is the most common form of embellishing. The technology of the vinyls has improved over the years and almost every jersey in most sports will have some sort of heat seal vinyl. The most common use for numbering jerseys and sponsor logos. The advantages of heat seal vinyl is no minimum requirements, cost effective and easily applied to most garments.

## SUBLIMATION

Dye sublimation is a process in which all design elements including logos, lettering, numbers, team names, sponsor logos, etc. are dyed directly into the fabric of the sports uniform. This has the advantage of being permanent, and actually becomes part of the fabric as opposed to screen printing which will eventually wear off and deteriorate. It also makes the uniform very light weight and breathable

### What do I need to do

If you have a design you are happy with we can either replicate your existing design or you can provide us with your image in an .EPS/.AI/.PSD file or any other high resolution electronic format. The better quality the image the better the print result will be. If you do not have a design we can create a design for you. Give us an idea of what you have in mind and we will come up with a design to suit your needs.
